DR. G. W. PHILLIPS'
Magic Cough Syrup
Is the only reliable remedy for the rapid and per-
manent cure of Coughs, Colds, Influenza, Bronchitis,
Hooping-cough, Croup, Sore Throat, Bleeding Lungs,
and all diseases of the Throat, Lungs and Chest. This
remedy is safe, reliable, and the only one that has
proved itself a universal remedy for all the above dis-
eases. The testimonials published are from our most
distinguished citizens here at home, who have been
cured by its magic power.

Important Testimony.
From Hon. J. W. Chapman, Judge of First Judicial
District, Indiana.
Dr. Geo. W. Phillips, Cincinnati, Ohio.—I have
used several small bottles of your "Cough Syrup,"
personally and in my family, and having seen its ef-
fects on others, I confidently believe it a large majority
of all diseases of the Throat, Lungs and Chest. I
have used it in numerous cases of severe colds and
coughs, and I most cheerfully recommend it as an in-
fallible remedy in all such cases. If this Syrup were
in general use, I confidently believe it would prevent
the colds, accompanied by coughs, that now termi-
nate in Consumption, would be effectually arrested.
In fact, I can see no necessity for any who can obtain
this remedy, being thus afflicted.
Respectfully yours, J. W. CHAPMAN.

Read This, Also.
From Hon. B. S. Storer, LL. D., Judge of the Superior
Court of Cincinnati.
Dr. G. W. Phillips, Cincinnati, Dec. 4, 1892.
I have been using with great success in my fam-
ily, and in the family of a friend, your "Cough Syrup,"
and I believe it to be a most safe and efficacious preparation
for the cure of colds, coughs, and all the other affec-
tions of the Throat and Lungs. Many of my neighbors,
who have felt the good effects of this medicine,
assure me that they regard it with great favor.

**New and Invaluable Remedy for
the Cure of Rupture.**

A CERTAIN CURE.
The undersigned prepares a Plaster out of Swiss
Alpine herbs, which he can recommend to all suffer-
ing from Rupture, as a remedy which will cure this
disease in the shortest time, in the most efficient
manner, without pain. Having proved its most wonderful
healing power during many years' practice in Eu-
rope and America, he would invite all persons to
personally give it a fair trial. One pot of it (the price
of which is \$3), will effect a cure in most cases. It is
for sale at A. C. F. & S. Drug Store, 112 East Cor-
ner of Sixth and Main streets, Cincinnati.

THE PRESS.

CINCINNATI, TUESDAY, APRIL 5.

A DEARER WIFE SHOTS HER HUSBAND.—A letter from Monongahela City, of the 31st ult., says: "The wife of Capt. B. F. Bentley, of this place, a young and beautiful woman, is subject to periodical derangement of the mind, at intervals of about two years. . . . This morning she got possession, by some means, of the pistols used by the Captain when in command of his troop—the Ringgold Cavalry—procured powder and lead, and loaded them, and went into the garret of the house. Discovering her whereabouts, he went after her, and as he ascended the last flight of stairs, she presented one of the pistols and fired. The ball struck the Captain's neck, in the front of the jugular vein, ascending through the front of the mouth—shattering bones and teeth in its deadly course in a horrible and frightful manner. The unfortunate husband is still alive, bleeding profusely, but speechless, and the attending physicians afford us no hopes for his life."

A MADMAN USING PISTOLS.—We clip the following from a late number of the St. Louis Democrat: On the down trip of the Seaboard a cabin passenger named Wm. Carter behaved himself outrageously—but the poor fellow was insane. When called by the cabin-boy to go to breakfast, he shot eight balls through the bulkhead, which passed through the cabin and into the opposite room. The boy was fortunately unharmed, although standing by the door. Afterward he called for his money—over \$800. The clerk brought it to the door, but he was frightened away by the ominous muzzle of a pistol, pointed at him from the upper portion of the door. The engineer finally stepped to the door of the state-room, burst it open, and secured the madman. Being considered a very dangerous person, he was put out at Jefferson City. The captain sent information of the affair to his brother.

WHISKY—POISON.—Two little boys, each five years old, discovered a bottle containing some whisky, on an embankment, in St. Louis, on Wednesday last, of which they partook rather freely. One of the children got home, and having ate hearty of bread and butter, laid down and slept himself sober, but the other child was so overcome that he flung himself upon the embankment, where he was found afterward in a state of stupor. He was carried home and cared for, but neither maternal anxiety nor medical skill was available, for the child died at two o'clock on Thursday morning.

An affray occurred at Yasco City, Miss., on Saturday week, between Mr. David Hagan, a planter of that county, and Mr. Wm. Phipps, son of a planter of that name, and a Mr. E. L. Phipps, overseer on the plantation of the elder Phipps, in which the two latter were stabbed several times with a knife in the hands of the former. The wounded men were not expected to recover.

Says the Zanesville Courier of Wednesday: "J. N. Free, of Cincinnati, the great and original genius, as he is called by those who delight to honor him, is in the city, and he requests us to say that if there is a fair prospect of proper appreciation of him here he will deliver a lecture in a day or two. J. N. assures us that his cause is gaining ground daily."

Joe Woods, who escaped from the State Prison at Jeffersonville some four weeks since, was arrested about four miles below Cincinnati on Friday, where he was detected in passing counterfeit money. Deputy Warden McLean, who captured him, paid Mr. McLean, who captured him, \$100 for his services. *Indianapolis Sentinel.*

Owen McDonald, who two weeks ago stabbed John Crony, at the Franklin Buildings, St. Louis, and who next bit off the nose of the citizen who arrested him, was yesterday committed for trial in the Criminal Court. In view of the still precarious tenure of Crony's life, the Recorder refused to accept bail.

Mr. Greeley, of the New York Tribune, has lately been in Eastern Pennsylvania among the iron-workers. He says the labor of a thousand men devoted to "iron-making in the Lehigh Valley will produce more iron each year than a like amount, equally well-guided, will produce in Great Britain."

It is stated that, on the arrival of the steamship Bonaventure at Portsmouth, Va., an enormous rock-fish was found entangled in the wheel, which required the exertion of three men to capture; after getting it on the deck of the ship it was measured, and exhibited a length of four feet, and weighed fifty-four pounds.

Mrs. Catherine Lemmon, of Aleppo Township, Green County, Pa., aged about sixty years, attended a prayer meeting, on Sunday last, and being called upon to pray, she responded in a brief address to the throne of Grace. When she rose from her knees, she staggered and fell dead.

The Hon. Arnold Plummer, of Venango County, Penn., was on Monday night robbed of a trunk, at the R. R. Station, Pittsburgh, which contained clothing and bank books, papers, etc., worth to him at least \$30,000. The thief was traced and the property recovered within an hour.

Rev. Dr. Stratton, of Natchez, Miss., has been compelled to desist from his labors for the present, on account of ill health. He is very singularly affected; every time he attempts to speak he hears an explosion like the report of a pistol.

The Duke of Cambridge has been detected in criminal intercourse with "one of his people's wives." Law is threatened by the injured husband for the recovery of \$40,000; his Grace offers £10,000. Whether that sum will be accepted remains to be seen.

The Indiana State Board of Agriculture have agreed to meet at New Albany on the first Wednesday of May next, for the purpose of adopting such measures as may be deemed proper in relation to a geological survey of the State.

During the year 1858, in Boston, nine colored males were married to white women, exactly the same number that occurred in the year 1857. There is not an instance reported of the marriage of a white man with a black woman.

A company of United States troops has been ordered to Plattsburg. The movement is supposed to have reference to the protection of the United States Government Reservations against squatters, who have heretofore given some trouble.

Miss Helen Dresser, sixteen years old, is lecturing in the Southern cities on Mormonism. She is the daughter of Mr. and Mrs. Dresser, whose escape from Salt Lake City, some two years since, made a stir at the time.

By the falling in of a church in Oswego, New York, the only sister of James M. Nash, second Clerk of the Ohio House of Representatives—a young lady of seventeen—was killed.

James Phillips, who was injured in the affray last Friday on the steamer David Tatum, died on Monday morning in Nashville. O'Neal and Wall, who are charged with the homicide, had a preliminary trial on last Friday.

The death of John Connel, Esq., of Wilmington, Delaware, is announced. He was a contemporary of Clay, Webster, Calhoun, and other eminent minds, whose conference and esteem he enjoyed.

On Sunday a woman was baptized in Ritchietown, with the usual rites and ceremonies of the Mormon faith. This is the first intimation we have had that this misguided sect has any disciples among us.

Dr. F. A. Noyes, of Boston, the poor fellow who became insane from being fitted by a lady whom he idolized, died at the McLean Lunatic Asylum on Friday last.

A German butcher, named Maypole, has disappeared from his home at Newark. His wife is apprehensive he has lost his life by some accident.

A bill for a uniform rate of weights and measures passed the Ohio Legislature on Friday.

A ruffian, named McCutcheon, was garroted in Pittsburgh on Monday night, and robbed of fifty dollars.

VOLCANO AT HAWAII.—A letter from Honolulu, under date February 12, published in the San Francisco Alta Californian, communicates the following:

On Sunday, January 23, at four o'clock P. M., without any of the usual preliminary phenomena of earthquakes, subterranean sounds, or sultry weather, the lava burst out some three thousand feet from the summit of Mauna Loa, (in the island of Hawaii), or ten thousand feet above the level of the sea, and such was the rapidity of the flow, that before morning spectators at Hilo, a distance of sixty miles from the eruption, were of opinion that the lava had run a distance of twenty-five miles down the mountain side. This eruption is declared by old residents to be greater in volume, and more magnificent in appearance, than any previous one that can be remembered. At Lahaina, a distance of over one hundred miles from the crater, on Saturday night, the 29th January, the volcano was distinctly visible, illuminating one-third of the heavens like that of an immense and neighboring conflagration; and from elevated positions, it is asserted that the shoots of liquid flame could be seen at intervals, as the immense cauldron "boiled and bubbled." The sea was lighted up with the reflection of the flame every-where within one hundred miles of the crater, and the coasting vessels enjoyed the advantage without the presence of a full moon. Lots of dead fish were observed floating about in the neighborhood of the islands, both before and after the commencement of the eruption, and the inference is, that they were killed by submarine fires or heat connected with the volcano. We, of Honolulu, have experienced a sensible change of climate, which fact is also attributable to the eruption. By last accounts, not far from one thousand square miles of the surface of the island of Hawaii must have been covered by the burning lava, causing a great rarification of air all over that space. As a consequence, our usual trade-winds have veered toward the north, and cold currents of air rush constantly over this island to restore the equilibrium—Hawaii lying to the south-east of Oahu. The weather has been uncommonly cool in Honolulu ever since the 23d ult., especially mornings and evenings.

MR. MORPHY.—The Xenia News thus philosophizes: "Morphy is still in Europe playing chess, conquering every one who opposes him. Mr. Morphy seems to consider the world as only a chess-board, and his life as only a game. Surely this man has too noble an intellect to be always wasted thus. To make an amusement, no matter how intellectual, the whole end of life is to be a contemptible aim for a gifted man. We cannot but feel that Gray entertains a much higher opinion of our young chess hero, if he had, in one respect, imitated the example of Mr. Staunton, and had shown that he did not regard the mimic battle on the red and black spots as the only object of his existence. Chess is doubtless a splendid, a regal amusement, but we can not admire the man who makes it his end, and his life-work. There are nobler as well as sterner works in this world of ours than playing chess."

TRACT SOCIETY.—The Chicago Congregationalist of Saturday says: Rev. H. M. Storrs and Dr. G. L. Weed, of Cincinnati, spent last Sabbath in this city. Mr. Storrs preached in the morning in the Plymouth church, and in the evening at the First Congregational church, and was listened to with great interest in both congregations. He and Dr. Weed were on a tour through the West to consult with brethren in various places as to the future operations of the American Reform Book and Tract Society.

The same journal also states, that the Treasurer of the American Tract Society at Boston, N. P. Kemp, Esq., is about to visit the West for the purpose of making arrangements with Bookellers and Depositories to supply all those who would prefer the publications of that Society.

WAR IN ITALY.—This war in Italy has been a long time "coming." Napoleon dreamed of it at St. Helena. Carbonari plotted it, who died in dungeon long ago. Austrian cannon have been watching for it, open-mouthed, these forty years. The Italian peasant has looked for it as regularly as harvest—sung of it behind his plow, taught his children to ask for it in their prayers. Gray-headed generals have been planning its battle fields and forced marches ever since they got their epaulettes. Again and again it has been whispered of in the Tuilleries and shuddered at in the Vatican. It has been felt to be inevitable. It may come this year. It may not come for ten years yet. But it is the belief of all Southern Europeans that it is at last "coming."—*Albany Evening Journal.*

DAN RICE SLANDERS INDIANA PATRIOTISM.—Says the Indianapolis Citizen, of Saturday: "The papers appear pretty generally down on Dan Rice, the clown. He deserves to be ridden on a rail if he ever comes again into Indiana. A few weeks ago one of our prominent citizens was attending the 'horse-opera' at Niblo's Theater, New York, where Dan was a bright particular star. In some of Rice's attempts at wit, he threw out his slanderous and insulting allusion toward our volunteers in the Mexican War. Our high-toned citizen was inclined to throw back the insult into the fellow's teeth, but very properly restrained his rage, in consideration of the time and place, and the ineffable contemptibility of the black-guard."

AN OHIO ARTIST.—We find the following paragraph in a letter to the Boston Transcript, on "Art Matters at Washington."

Miss C. L. Ransom, of Sandusky, Ohio, who has been sojourning here for a few weeks, is at work upon a portrait of Mr. Giddings, which bid fair to be a strong and characteristic likeness and an admirable work of art. Miss Ransom's portraits are remarkable for a degree of strength and vigor not often seen in the production of female artists. She is a young lady of great cultivation, and is devoted to her profession, which she pursues with a degree of intelligence and enthusiasm that must one day give her an enviable position in the domain of art.

LABOR DISCOVERY OF LEAD.—A very large and rich discovery of lead has recently been made in Miller County, near the mouth of Humphreys Creek, two miles from the Ohio River. It promises the finest and largest yield of any vein yet discovered in Missouri. The land on which it was found, six hundred and twenty acres, was bought a few months ago at almost a nominal price. In fact thousands of acres of the best mineral land in the State are yet open to warrants, or may be bought at from one to two dollars an acre. The specimen of lead shown to us from this vein in Miller County, certainly indicate a very rich lead.

THE HATCH DIVORCE CASE.—Dr. B. F. Hatch can't keep his hands off from Cora, once his, but no longer the companion of his bosom and his spiritual speculations. The Supreme Court of New York has enjoined him from attempting to exercise any control over his wife. Notwithstanding this injunction, the Doctor, last Sunday evening, waylaid Cora in Brooklyn, as she came from a lecture, and laid his profane hands upon her. For this the Doctor was charged with contempt of Court, and the Judge granted an order requiring him to appear and show cause why he should not be punished for the same.

A LONG JOURNEY.—Yesterday, says the Davenport Gazette of the 30th ult., a party of eight men passed through Davenport, on their way to the land of gold. They were from Belmont County, Indiana, and had been twenty-two days on the journey—almost 400 miles. They had a large and small wagon, the former propelled by a five oxen, and the latter by two oxen led off by a horse. Men and cattle appeared standing the trip very well. They are getting "broke in" to the work. They have a long journey before them yet.

BANK OF KAWAII.—Notes of this bank, of the denomination of five dollars, have been changed and altered into notes of one hundred dollars. The alteration has been well executed, and these \$100 notes are apt to deceive any one. The fact is, though, the bank never issued any notes of such denomination. It has issued only \$5, \$10 and \$20 notes.

STONE-DRESSERS ARE BUSY AT WORK ON THE new government building at Indianapolis. A large quantity of dressed stone is already prepared for outside walls.

WHITES
Reporter and Detector,
Is published twice a month in
NEW YORK, CINCINNATI, LOUISVILLE AND
ST. LOUIS.

The standing of every Bank in the United States,
in each of those cities, is reported, and the quotations
carefully corrected by banking firms of the highest
standing, who pledge themselves to pay all sums as
quoted in their respective localities. The publishers
have had many years' experience in the business, and
their office, and the Bankers who furnish the rates
have no interest whatever in the Reporter. Moore,
NORTON, LOWRY & CO. correct and furnish
the rates for this city.

MISCELLANEOUS.

A CARD.

To my Patrons and the Public!

DESIRING TO RETURN MY GRATE-
FUL acknowledgments for past favors, I take
this occasion to say that no effort shall be wanting
on my part to merit a continuance, and meet the
demands of my patrons for the approaching season. I
shall continue to confine myself to a strictly retail
trade in the finer grades of

HATS AND CAPS,
giving much attention to designing new styles, and
securing the latest New York and Paris productions.
I shall, as heretofore, be supplied with Gentlemen's
Hats from the three leading New York Hatters,
viz: "Gentle," "Leary & Co.," and "Boose & Co."
Our own stock of Dress Hats will be limited only to
March, and will, we trust, meet the approval of gen-
tlemen of taste.
